

THE BLACK CONTRACTORS ASSOCIATION

BECOME A

MEMBER

TODAY!

Serving as a collective voice for the African American Construction Community, The Black Contractors Association was established to connect Black and Minority contractors and other construction related suppliers to general and prime contractors in the greater San Antonio community. Our primary goal is to assist our members in the growth of their businesses by creating strategic alliances both within and outside of the organization, as well as to provide continuing education opportunities that will ensure their success. We believe in leveraging the strengths of our members and their firms in order to make the sum of our collective organization much stronger and impactful than any individual company.

2018 BCA STEERING COUNCIL

CHAIRMAN **VERNON BRYANT**
BRC Remodeling

"The BCA is the premier organization for Black contractors and business owners located in the San Antonio area. Our primary goal is to assist our members in the growth of their businesses by creating strategic alliances both within and outside of the organization, as well as provide continuing education opportunities that will ensure their success."

VICE CHAIR **JARVIS MOORE**
JMI, Inc.

"As a small business owner located on the east side of San Antonio, I'm excited about the potential of the BCA and the growth of businesses throughout our city. It's reassuring to have an organization like this available to black and minority business owners so that we can take advantage of opportunities such as training and networking through our membership."

OUR MISSION is to promote the leadership development of individual construction professionals and provide dynamic forum exchange of ideas, knowledge and experience, while upholding our Associated General Contractors (AGC) values.
